SECOND FLOOR PLAN

Surrounded by porches, this rambling farmhouse boasts front and back clerestory dormers for added volume and natural light. The unconventional rear staircase is located in the great room for convenience and is capped by an impressive second story balcony that serves as the upstairs hallway. The master suite is privately situated downstairs, and features a magnificent bath with his and her walk-in closets, a linen closet, dual vanities, and separate tub and shower. Both second story bedrooms boast dormer alcoves and walk-in closets, and the bonus room works well as an out-of-the-way family rec room.
