

The Irby Plan 993

© 2002 Donald A. Gardner, Inc.

This house plan combines stone and siding for a striking façade. Inside, decorative ceiling treatments enhance the great room, dining room, master bedroom, and the study/bedroom. A fireplace, kitchen pass-thru and French doors complement the great room, and the bonus room, which is accessible from the foyer, provides expansion space.

Total Living Area.....1580 sq. ft.
